DRACÆNA VICTORIA.

ROYAL WARRANT HOLDERS TO HIS MAJESTY THE KING.

New Dracænas.

Messrs. WILLIAM BULL & SONS have much pleasure in recommending the following New Dracænas, notable for the magnificent coloration of their leaves, and their ornamental character.

Albertii. An elegant variety with richly coloured orange-red leaves. Very graceful for all decorations 15/-

Comte de Rottermund. Large leaves, dark bronzy-green, beautifully margined with rosy-salmon 21/-

Davignonensis. Long leaves, elegantly recurved. Bright green with border of rose-carmine. Very striking and beautiful 31/6

Madame Lecoq Dumesnil. A vigorous-growing variety, with erect blackish-green leaves, bordered with bright carmine. A striking and beautiful variety 21/-

Madame Salvago. Leaves long and broad, chocolate-green striated with rose, the colour extending into the petioles. Very distinct and beautiful 42/-

Mdlle. de St. Beuve. A dwarf-growing variety, with erect clear bronzy-green leaves, striped with rose. A lovely new and distinct form 21/-

Massoni. Of compact growth with very dark metallic green leaves, handsomely margined with salmon-rose. Most desirable 15/-

Mayii. A most handsome compact-growing variety with rich rosy-crimson leaves 10/6

Pere Charon. A beautiful red-leaved sort, the colour being almost entirely crimson-vermilion with a metallic shade. A most striking variety of incomparable colour 21/-

rubens. Another extremely handsome self-coloured variety, the leaves being of a uniform rich carmine-red. Very fine 42/-

Saujotii. An elegant narrowish leaved variety, dark brownish-green, margined and striped with vinous-rose. Very distinct 21/-

Wartellii. Long leaves, rather broad, with rich carmine-red coloration. Highly recommended 31/6

DRACÆNA GOLDIEANA.

Dracænas.

GENERAL COLLECTION.

A. Laing. Long narrow drooping red leaves. One of the best of the narrow leaved forms 3/6

Alexandra. A broad-leaved variety, handsomely variegated with ivory white 5/-

amabilis. Large leaves, bright green, suffused with creamy-white end tinged with pink, young leaves sometimes rose-coloured 3/6

angustifolia. A narrow-leaved erect growing variety, with red variegation .. 5/-

Aurora. Narrow leaves with reddish-carmine coloration 10/6

Baptistii. Leaves deep green, margined and striped with narrowish creamy-white flakes, passing through pale pink to deep rose 7/6

bellula. A pretty neat growing species, with green leaves streaked with bronze-brown 10/6

Brilliant. Broad-leaved variety, handsomely variegated with reddish-crimson on bronze-green ground 15/-

Cooperii. Leaves elegantly curved, dark bronze-green splashed and marked with crimson 5/-

Coullingii. Deep green edged and flamed with creamy white 5/-

Countess of Hopetoun. Very compact, with narrow red leaves 15/-

De Smetiana. A beautiful variety, with broad deep green leaves, strikingly variegated with salmon-carmine deepening to orange 15/-

Doucetti. Long erect growing leaves striped and variegated with creamy white 21/-

Duchess of York. A narrow leaved variety of elegant habit, dark olive-green with bright carmine margin, the young foliage light green with bright crimson-white margin tinted with rose pink 5/-

Eldorado. Broad leaves with yellowish ivory-white leaves 10/6

elegantissima. A pretty narrow-leaved variety with dark red coloration .. 5/-

Ernestii. Narrow leaves with red variegation; drooping habit 5/-

Exquisite. An elegant variety, with leaves of medium length, beautifully variegated with white and pink, flushed with rose on a pale green ground. A most desirable variety.. .. .. 5/-

Flambeau. Narrow red leaves beautifully coloured with crimson. Erect habit 15/-

Frederici. An erect growing variety with medium-sized crimson leaves, the centre marked and streaked with metallic bronze 5/-

Godseffiana. Of shrubby growth, with bright green ovate leaves, spotted and dotted with cream and golden-yellow 5/-

Goldieana. A magnificent species with stout recurved ovate leaves, irregularly marbled and barred with a striking variegation of silvery-green on dark green in transverse bands. The underside of the leaves is of a pale reddish-purple or wine colour 21/-

gracilis. Pretty green arching leaves, very narrow. Most useful for decorating 3/6

grandidens. A splendid variety, with broad handsome leaves, dark green ornamented with crimson and carmine markings.. .. .. 5/-

Haroldiana. Leaves of medium width, bright green, handsomely variegated with creamy-white and deepening to brilliant rose 5/-

His Majesty. Vivid crimson leaves, handsomely recurved 7/6

Imperatrice. Pretty narrow leaves, handsomely variegated with salmon-pink 21/-

Jamesii. Narrow leaves of a reddish-crimson colour. Compact habit 5/-

John Luther. Broad dark green leaves, striped and margined with rosy-crimson 5/-

Lady Mosley. Of compact habit, drooping narrow leaves of a bright rosy-pink colour 5/-

Lindeni. Dark green recurved leaves, marked and shaded with bands of creamy-white and various shades of yellow 5/-

Lord Roberts. Erect habit, leaves of medium width of a rich dark red .. 5/-

Lord Wolseley. Rich bronzy-green leaves, with crimson-carmine border, the young leaves being wholly crimson-carmine 5/-

Louisa. A narrow-leaved form, deep green variegated with white 5/-

Made. F. Bergmann. A fine form, broad dark green leaves strikingly variegated with crimson 5/-

marginata alba. A striking variety of dwarf habit, leaves green with creamy-white variegation, extending nearly the whole length of the leaves 21/-

marginata rosea. A counterpart of the foregoing except for the colour of the variegation, which in this plant is rose-carmine 5/-

Mikado. Dark red variegation on bronzy-green ground, broad leaves 21/-

Miss Glendinning. Bright red, long narrow leaves, very graceful 5/-

Mrs. Laird. A pretty narrow-leaved variety with crimson-red margins .. 5/-

Nonpareil. Long leaves of medium width, green ground, edged deep red, young leaves rosy-pink 15/-

Norwoodiensis. Leaves banded with yellow, green and crimson, the last named colour being chiefly confined to the margins, the petioles are bright crimson 5/-

pendula. Handsome recurved leaves, dark bronzy-green, richly variegated with carmine-red 5/-

Princess Charles of Denmark. A handsome form with white variegation, tinted with rose, deepening to rosy-carmine 5/-

Prince Manouk Bey. Deep metallic red leaves, richly striped and coloured with magenta-crimson 5/-

Princess May. A most elegant narrow-leaved variety with pretty red variegation 7/6

Robinsoniana. Pale green, striped with crimson, red and yellow, extending nearly the whole length of the leaves 21/-

Rose Laing. Narrow leaves with bright pink margins 5/-

Sanderiana. A neat growing, with small lanceolate leaves, bright green in the centre, with a creamy-white margin 3/6

superba. A beautiful variety with broad linear lanceolate leaves, dark bronzy green, margined and striped with bright crimson. The young leaves rose crimson 5/-

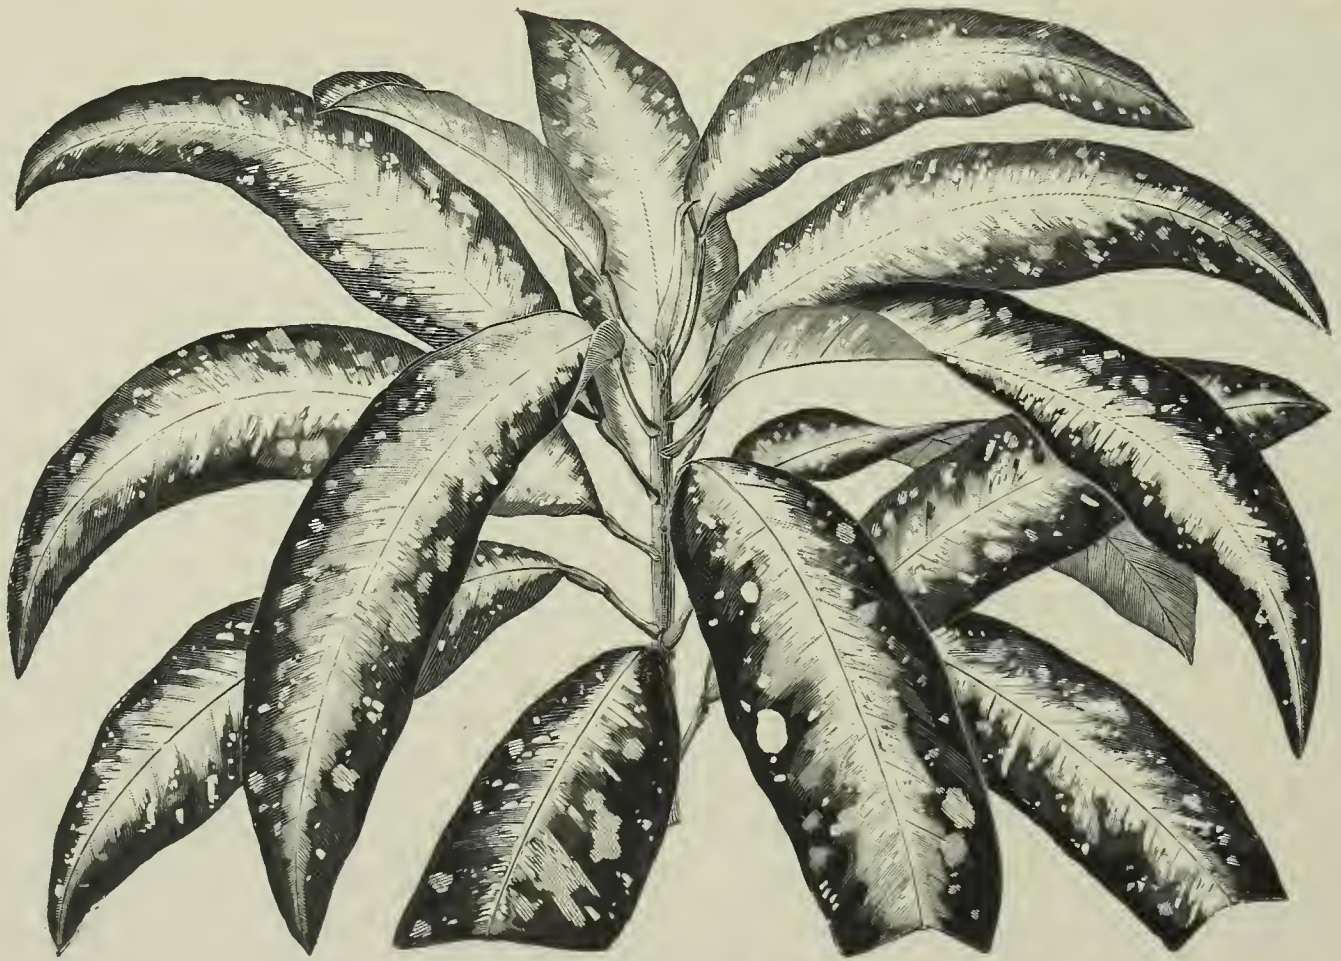
terminalis. An erect growing form handsomely striped and variegated with rose and carmine 3/6

terminalis alba. Similar to the above, but with white variegation 15/-

The Queen. Long and very narrow leaves elegantly arched. They are deep green in colour margined with bright carmine 7/6

The Sirdar. An effective broad-leaved variety of dwarf habit. Leaves gracefully arching, dark olive green with brilliant carmine border. Younger leaves creamy-white tinted with rose-carmine, with an occasional central green band 7/6

Victoria. This magnificent plant is one of the most handsome varieties ever introduced. It belongs to the same section as D. Lindeni, but is quite distinct from it, not only in the style of its variegation but in the brightness and constancy of the lovely golden yellow coloration of the leaves, which are broad and gracefully recurving, wavy at the margins 31/6



CROTON NESTOR.

New Crotons.

The following new varieties are all highly recommended by WILLIAM BULL & SONS. The different colours displayed by these beautiful Ornamental Foliaged Plants are very bright, the intensity of the many shades of orange, crimson, vermilion and yellow, being beyond description.

Comtesse Ugo Cahen. Leaves ovate, undulate on the margins, bronzy-green coloured with dark vermilion, midrib and veins violet-red, the young leaves citron-yellow on light green. Extremely handsome 84/-

Dr. Allix. A distinct trilobate form with dark red variegation on a deep bronzy-green ground. Very distinct.. .. .. 31/6

Duchess de Gramont. Ovate lanceolate leaves, richly coloured with bright red. Very handsome.. .. .. 42/-

General Brissac. Long recurved leaves, veined and mottled bright Venetian red and splashed with carmine. An extremely beautiful variety 31/6

Hassan Rassem Bey. Trilobate leaves with beautiful red variegation, shaded with golden-orange, the central lobe much elongated. Exceptionally distinct and beautiful 84/-

Her Majesty Queen Alexandra. A beautiful variety with very elegant narrow leaves, strikingly variegated with yellow 21/-

His Majesty King Edward VII. Another strikingly handsome narrow-leaved variety with a brilliant red variegation 21/-

Isareus. Narrow sub-trilobate leaves, handsomely coloured with rosy-crimson and yellow. A distinct and beautiful variety 15/-

Madame Bénard. Large ovate leaves, dark green, richly marbled with golden-yellow, shaded with orange red, bright carmine violet veins 42/-

Madame Berthe Fournier. Large ovate leaves, midrib and veins rich red. Very handsome 21/-

Madame Bruant. Large leaves of a trilobate form, handsomely variegated with red.. .. .. 15/-

Madame D. Cuannier. Trilobate leaves with midrib and veins crimson, leaf blade diffused with red 15/-

Madame de St. Valliere. A distinct variety with trilobate leaves, bright carmine, shaded with rosy-white on a green ground 21/-

Madame Ernest Bergmann. Ovate leaves, bright green, handsomely variegated with white 10/6

Madame Ferd. Bergmann. Richly veined with crimson, the leaf blade coloured carmine-red, ovate leaves 21/-

Madame F. Kohl. Leaves very large, trilobated towards the apex, bright green richly coloured with yellow, maturing to orange, veins bright carmine with network of the same colour on margins. A magnificent variety .. 84/-

Madame Grandin de l'Eprevier. Ovate lanceolate leaves, young leaves yellow, turning to orange-crimson with age. Very beautiful 10/6

Madame H. Delaunay. Bright emerald green trilobate leaves, the central one much elongated, marbled and veined with citron-yellow, turning to creamy-white with age. Magnificent 105/-

Madame Lemonnier. Beautifully coloured with pink, shaded with carmine, ovate leaves. Very pretty variety 15/-

Madame Leon Duval. Ovate leaves, strikingly variegated with creamy-white. Extremely beautiful 15/-

Madame Leroy. Long narrow-leaved with a coloration of carmine-pink .. 10/6

Madame Lucien Linden. Large oval leaves with crimson midrib and veins, the leaf blade is bullate, dark olive-green on a golden-yellow ground 21/-

Madame Van Mol. Ovate lanceolate leaves, prettily variegated with pink, carmine-red veins. Most ornamental 15/-

Mdlle. de Boudnay. The trilobate leaves have a golden-yellow centre, the colour continuing along the veins and forming a network at the margins. Very distinct and beautiful 42/-

Mdlle. Elisabeth Andre. Trilobe leaves, compact habit, colour clear yellow passing to rose as they attain age. A beautiful variety.. .. .. .. 63/-

Mdlle. Marie Van Houtte. Beautiful long and narrow pinkish-carmine leaves 10/6

Mdlle. Marthe Cahuzac. A large broad-leaved variety, dark bronzy-green variegated with cerise-red, veins carmine-crimson. A very striking and distinct variety 63/-

Magnoliœfolius. Large ovate leaves, bright green with golden-yellow midrib and veins. Bold and distinct 15/-

Marquis de Gadiaro. A pretty variety with contorted leaves, with irregular sinuous margins, centre bright yellow in the young state, passing to rich orange and crimson with age.. .. .. 31/6

Marquise de Balleroy. Dwarf form with long undulated leaves of dark shining green, covered with bright blood-red veins and nerves. Very handsome 63/-

Marquise de l'Aigle. Ovate leaves, beautifully variegated on a bright green ground with creamy-white 15/-

M. Alexandre Winterstein. Ovate leaves, midrib and veins golden-yellow when young, maturing rose-pink. Very handsome 31/6

M. Alfred Thierrard. Dark bronzy-green ovate leaf with red variegation. A very distinct and handsome sort 42/-

M. Draps Dom. Leaves bright green, ovate, richly veined with reddish-crimson. Very beautiful 21/-

M. E. Houlet. A large trilobe form, the lobes being very irregular, large blotches and nerves of yellow, passing to bright red with orange zones. Handsome and distinct 42/-

M. Jarry Desloge. Leaves ovate, handsomely variegated with red and crimson. Magnificent 21/-

M. Magne. Medium-sized leaves, handsomely variegated with yellow. Strikingly beautiful 31/6

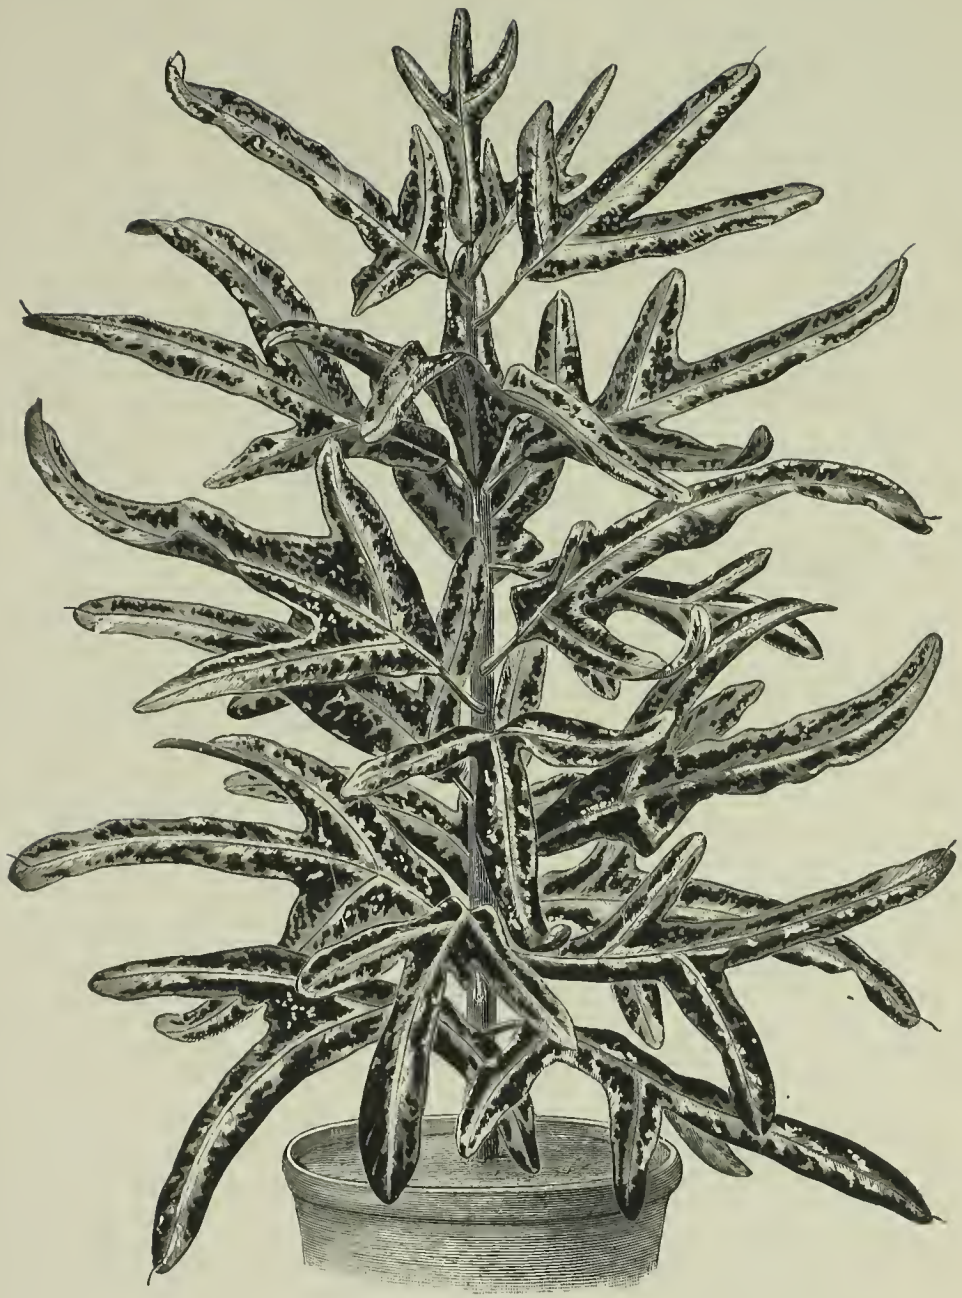
monstruosus. Appendiculate leaves, the basal portion being irregularly lobed, colour yellow changing to violet-rose and dark red. Very distinct and ornamental 42/-

picturatus major. Dark olive-green, mottled with golden-yellow, passing to orange-carmine with age, leaves occasionally appendiculate 31/6

Puccianus. One of the trilobate forms, handsomely variegated with reddish-crimson 21/-

trilobus grandifolius. Handsome trilobate leaves, strikingly variegated with reddish-crimson and carmine. Very handsome 15/-

V. Lemoine. Ovate leaves, clear yellow, shading through salmon-orange to vermilion-red in the mature leaves. An exceptionally handsome variety .. 63/-



CROTON ILLUSTRIS.

Crotons.

GENERAL COLLECTION.

Adonis. Long arching leaves, olive green, veined and maculated with rich orange-yellow changing to brilliant red. Many of the leaves are spiral .. 5/-

Aigburthensis. Long bright green leaves, changing with age to dark green, yellow midrib, the leaf-blade mottled with pale yellow 5/-

Alexander III. Deep metallic green leaves remotely trilobate, the costa, veins and margin richly coloured with fiery crimson 15/-

Aigburth Gem. Dark bronzy green appendiculate leaves, richly spotted and margined with carmine-crimson 5/-

Andreanus. Of robust growth, young leaves banded with yellow, changing with maturity to rich crimson 3/6

aneitumensis. Bright apple-green leaves, the costa and veins golden yellow with narrow yellow edging 5/-

angustifolius. Long and narrow drooping leaves, beautifully variegated with golden yellow 3/6

aureo-nervosus. Oval leaves, the veins being distinctly lined out in yellow 15/-

aureo-punctatus. Very dwarf variety with narrow green leaves, spotted and maculated with yellow 5/-

Baron F. Selliere. Fine large leaves, handsomely variegated with creamy-white and golden yellow 5/-

Baronne James de Rothschild. Broad lanceolate leaves, widest towards the apex, metallic green, the costa and veins being rich crimson, yellow and pink when young 7/6

B. Comte. Bronzy green leaves, strikingly blotched with yellow, orange and red, petioles and stem rich crimson red 7/6

Bergmannii. Ovate leaves, bright yellow, the spaces between the veins dark olive green 10/6

Bernardii. Long leaves, handsomely varicgated with pink on a green ground.. 10/6

Bobs. Deep olive green leaves veined and serrated with rich orange yellow, the base and centre of leaf having rich maculations of the same colour, changing to orange red tinged with crimson 5/-

caudatus tortilis. Long narrow green leaves, curiously twisted and undulated crimson midrib bordered with orange, the leaf blade being ornamented with numerous dots and splashes of orange and crimson 5/-

Carrierei. Long narrow leaves, strikingly variegated with yellow 10/6

chelsoniensis. A remarkably elegant form with narrow leaves, many of them spirally twisted, displaying most effectually the variegation of bright orange and salmon shaded with crimson 5/-

Countess. Bright green linear leaves spotted and mottled with yellow .. 5/-

Countess superbus. Long narrow green leaves, with bright yellow midrib, bordered with the same colour, later becoming of a rich golden tint 15/-

Daviesii. Lanceolate creamy yellow leaves, marmorated between the veins with dark green 5/-

Delight. Leaves of medium breadth with marmorations of apple green on a pale creamy white ground. Very distinct 5/-

Diana. Petioles and costa bright crimson, the latter set in a ribbon-like central band of bright golden yellow, margins dark green, profusely spotted and maculated with bright yellow 7/6

Disraeli. A trilobed variety with the costa and veins golden yellow later developing a crimson tint-shaded scarlet 5/-

Doamei. Medium-sized leaves slightly twisted and tapering to apex, beautifully variegated with yellow on a bright green ground 5/-

Edmontoniensis. Ovate leaves of medium width, dark olive green broadly margined with golden orange 7/6

elegantissimus. A most charming variety with long, narrow leaves richly variegated with bright golden yellow, contrasting prettily with the bright red of the petioles 5/-

Elvira. Long, narrow leaves, spirally twisted, the yellow colour of the young leaves passing to creamy yellow, with a margin of bright green as they attain maturity. Many of the leaves have a continuous narrow yellow edging, the effect being exceedingly striking 7/6

Elysian. Long, narrow leaves, the margins being much undulate, or in some completely spiral. The costa is crimson, set in a centre band of rich golden yellow, the exterior portions olive green, marmorated with yellow 7/6

Eugenie Chantrier. Ovate leaves with yellow midrib and veins, maturing to orange crimson 7/6

Euterpe. An extremely pretty variety, the leaves being separated into two parts by a central portion of the costa, from which the leaf-blade is entirely absent. The costa is rich crimson, and the leaf-blade is prettily variegated with purplish carmine suffusions and spots, with yellow maculations .. 5/-

Evansianus. Leaves trilobate of a light olive green, with the midrib and veins golden yellow, deepening with age to bronzy-crimson and rich-orange scarlet 5/-

Etna. A pretty dwarf-growing variety with lanceolate dark green leaves, midrib and veins rich orange crimson 15/-

fasciatus. A bold broad-leaved form, veined with bright yellow, the bright green portion being ornamented with irregular spots and blotches of yellow 7/6

Flambeau. An extremely handsome form with narrow leaves, brilliantly coloured with rich red 5/-

Flamingo. One of the most handsome of all the bright red varieties. It has dark bronzy-green leaves, the costa and a narrow portion of the leaf on each side being strikingly coloured and spotted with rich crimson 7/6

Florence. A narrow-leaved variety, beautifully variegated with golden yellow 15/-

Gordonii. Long recurved leaves, veined and mottled bright Venetian red, and splashed with yellow 5/-

Golden Gem. A pretty variety, with golden yellow narrow leaves 7/6

Golden Ring. Leaves brilliant gold, beautifully twisted and curled 7/6

Golden Bracelet. Twisted yellow narrow leaves; of vigorous growth .. 21/-

Golden Chain. Long narrow foliage, profusely coloured with fawn-yellow 21/-

Golden Fleece. Narrow-twisted leaves, with golden-yellow variegation .. 21/-

Golden Queen. Broad leaves, centre deep gold, the green marginal portions being blotched with the same colour 21/-

Hammondii. A narrow-leaved variety with red colouration 5/-

Hawkeri. Leaves of medium width, handsomely variegated with white .. 5/-

Hercules. Long, narrow leaves, somewhat constricted midway, dark green with bands of creamy white, developing a tinge of carmine rose 5/-

illustris. Irregularly trilobed twisted leaves with maculations of rich golden-yellow; the tips of the young leaves being of a rich gold colour 10/6

inimitabilis. Medium linear-lanceolate leaves, bright green, changing to dark bronzy-green; blood red costa and veins 7/6

interruptus aureus. Long, narrow leaves of rich golden coloration 5/-

interruptus elegans. Very graceful variety with bright yellow variegation 5/-

insignis. Long green lanceolate leaves, maculated and splashed with golden-yellow; crimson midrib 10/6

Jamesii. Ovate leaves of a dark bronzy-green colour, bordered with carmine-crimson, youngest leaves of a bright carmine-crimson 5/-

Lacteus. Leaves ovate lanceolate, with creamy white variegation 15/-

Lucy. Elegantly arching narrow leaves, dark red, with crimson spots 7/6

Lady Zetland. Linear leaves slightly twisted, orange-red midrib and margins turning to crimson; the green portion of the leaf often spotted with blood-red 7/6

Laingii. A fine high-coloured variety with narrow twisted foliage, variegated with yellow and crimson on a rich dark green ground 5/-

Madame A. Bleu. Long gracefully recurved leaves, handsomely coloured, and marked with rose and pink 10/6

majesticus. A grand variety with narrow leaves, deep green when young, ribbed with golden-yellow, changing later to olive-green and brilliant crimson 5/-

Mars. The leaves spotted and maculated with deep yellow on a dark green ground, the mature leaves being tinged and veined with crimson .. 7/6

Massangeanus. Bright red stem and petioles, narrow rosy-red leaves, maculated dark olive-green and yellow 5/-

Masterpiece. A superb and distinct variety with pendulous leaves spirally twisted and curled, variegated-yellow on dark green ground 10/6

metallicus. Curiously recurved leaves of a metallic bronze colour, shaded with crimson 21/-

Memphis. Linear-lanceolate leaves, dark green, ornamented with spots of golden-yellow 15/-

M. A. Chomer. Leaves ovate, dark bronzy-green with red coloration .. 10/6

M. A. Truffaut. Ovate lanceolate foliage, handsomely variegated with white 10/6

M. E. Fournier. Leaves of trilobate form, midrib and veins red 10/6

M. Eugene Chantrier. Large ovate leaves with crimson midrib and veins, young leaves yellow 15/-

Morletii. Ovate leaves, variegated yellow, deepening with age 15/-

Mortefontainensis. Trilobate leaf, with red and yellow coloration .. 5/-

Mortii. Dark green leaf, a band of golden-yellow bordering the costa and veins, joining at the margin in a golden network, freckled with yellow dots.. 7/6

Mrs. Bause. Leaves slightly trilobate of medium width, yellow coloration .. 10/6

Mrs. Clibran. Very narrow twisted leaves of an orange gold colour 15/-

Mrs. Dorman. Long arching narrow leaves, having an irregular stripe of rich orange-scarlet down the centre, splashed with the same colour .. 5/-

Mrs. Harry Green. In the young state the leaves are bright yellow, margined with bright green, becoming, as they mature, suffused, margined and spotted with bright orange carmine, deepening into crimson at the tips of the leaves 7/6

Mrs. H. B. May. Narrow twisted leaf with creamy yellow variegation .. 10/6

Mrs. Iceton. Broad leaves, beautifully coloured with pale yellow towards the base, the spiral part grass green, later the yellow becomes suffused with rose deepening to carmine 5/-

Mrs. Luther. Very narrow crimson-coloured leaves; plant of graceful habit.. 10/6

Mrs. McLeod. Long narrow leaves, often curiously twisted, displaying a great variety of colour, changing from pale-yellow to orange and crimson 7/6

musaicus. Bright green with yellow midrib, the leaf blades maculated with yellow, maturing to crimson.. .. .. 7/6

Nestor. Rich green linear lanceolate leaves, the centre golden-yellow, shaded with pink and maturing to rich crimson, margins freely spotted with yellow and crimson 21/-

Newmanii. Large lanceolate leaves, freely variegated with bright golden-yellow and white, the midrib is bright magenta crimson 5/-

Nobilis. Narrow bright green leaves, maculated with yellow, turning to dark green and crimson with age; dark crimson midrib 5/-

Norman McLeod. Narrow red leaves, very graceful 21/-

Oldfield Gem. Long narrow foliage, variegated with whitish yellow and red.. 10/6

President Chereau. Ovate leaves, beautifully veined and marked with white 10/6

Prince Henry. A broad-leaved variety, the costa being crimson and gold, changing to blood red.. .. .. 21/-

Prince of Wales. An elegant form with twisted leaves, pale-yellow margined and mottled with bright carmine, midrib and petiole bright magenta .. 7/6

Princess of Wales. Long narrow leaves, variegated with creamy-white .. 10/6

Princess Mathilde. Ovate leaves, freely variegated with bright yellow on a deep green ground 10/6

Queen Victoria. Leaves of medium width maculated and splashed with bright golden yellow, maturing to orange crimson with an edging of scarlet and green, midrib and veins vivid crimson 5/-

Reidii. A magnificent variety with broad leaves, bright green when young with golden midrib and veins, the costa and primary veins passing with age to crimson cerise, a colour eventually extending to the whole surface of the leaf being further brightened with golden orange 7/6

Rodeckianus. Narrow appendiculate leaves, blotched and mottled with creamy-white tinted with rose pink.. .. .. 7/6

ruberrimus. A fine bright red variety with narrow drooping leaves. When young these are green at the edge with creamy-yellow on each side of the costa, the green parts spotted with cream which matures into red, the midrib becoming deep crimson and the creamy-yellow deep rosy crimson 7/6

Russellianus. A broad leaf variety with yellow and orange variegation .. 7/6

Sceptre. Long, bright green leaves the midrib in the young leaves, bright yellow, later becoming dark red bordered with orange 7/6

Silver King. Long and narrow twisted leaves bright green beautifully variegated with silvery white 21/-

Sinitzinianus. Narrow appendiculate leaves, prettily variegated with white .. 5/-

Souv. de Marcel. A beautiful sort with trilobate leaves, strikingly variegated with pink shaded with rose 21/-

Sunbeam. A beautiful variety with crimson midrib, the lanceolate leaves being spotted with yellow, turning with maturity into carmine-crimson 5/-

Sunshine. Dark bronzy-leaves, about two inches broad, freely blotched with yellow, maturing into rosy-crimson and deep red 7/6

Thomsoni. Broad green leaves of sub-trilobate form, golden midrib and veins with marmorations 7/6

Turnfordiensis. Handsome leaves, slightly lobed at base, midrib and veins deep golden-yellow, the marginal veins being handsomely marked and defined with the same colour.. .. .. 21/-

undulatus. Leaves elegantly waved, nearly yellow when young, deepening to bright green with age, irregularly mottled and blotched with bright crimson 7/6

Venus. Long, narrow spiral leaves, slightly lobed at base forming a connate ring round the petiole; colour rich golden-yellow maculated with green .. 31/6

Veitchii. Broad dark green leaves, beautifully mottled with creamy-yellow, changing with age to reddish-purple 5/-

Warreni. Spiral linear lanceolate leaves, mottled and suffused with orange-yellow and carmine, changing to rich crimson 5/-

Weismanni. Leaves shining green, striped and mottled with golden-yellow .. 3/6

Weismanni superba. Medium leaf, beautifully variegated with bright golden-yellow 5/-

Williamsii. A large-leaved variety, young leaves having a yellow central variegation, veins changing to deep crimson, shaded with bright orange .. 5/-

Anthuriums.

These, like Alocasias, belong to the same natural order as Caladiums and so succeed admirably with them. Their ornamental foliage varies greatly in size and shape, many of the leaves being beautifully marked and variegated with silver-grey and white.

Augustinum. Long dark green leaves. Very striking and ornamental .. 10/6

Binotii. Long oval leaves, rich green. Most desirable 15/-

Bogotense. An ornamental species with cordate leaves 21/-

cordifolium. Long heart-shaped leaves. Very distinct 31/6

crystallinum. Very ornamental, dark bronzy-green heart-shaped leaves, veined with ivory white 7/6

crystallinum illustre. A beautiful variety of the preceding, the variegation being much more brilliant, sometimes extending into the leaf blades in an irregular manner 84/-

dentatum. Handsome ornamental leaves with three lobes on each side .. 10/6

Dickii. Very large and long pale green leaves 42/-

Eduardii. Very fine dark green leaves with satiny sheen 63/-

Galleottianum. A robust growing kind with broad lanceolate leaves 5/-

Gustavi. Very handsome large leaves 42/-

Harrisii pulchrum. Very distinct, with pale green leaves closely flecked with white markings intermixed with dark green, giving the appearance of a silvery variegation, midrib cream white 10/6

Hugelli. Very long and large pale green leaves 42/-

hybridum. Handsome sagittate leaves with wide-spreading lobes, the young leaves are cinnamon-brown 10/6

insigne. Leaf blade three lobed, young leaves pinkish-bronze 21/-

intermedium. Large oblong ovate leaves, upper surface deep velvety green, the costa and principal veins being whitish 10/6

Isarense. Of strong and vigorous growth, long dark green leaves deeply veined 31/6

Laucheanum. Handsome dark green leaves with satiny sheen 21/-

leuconeurum. Erect growing dark green cordate leaves borne on long petioles, veins milk white bordered with apple green 7/6

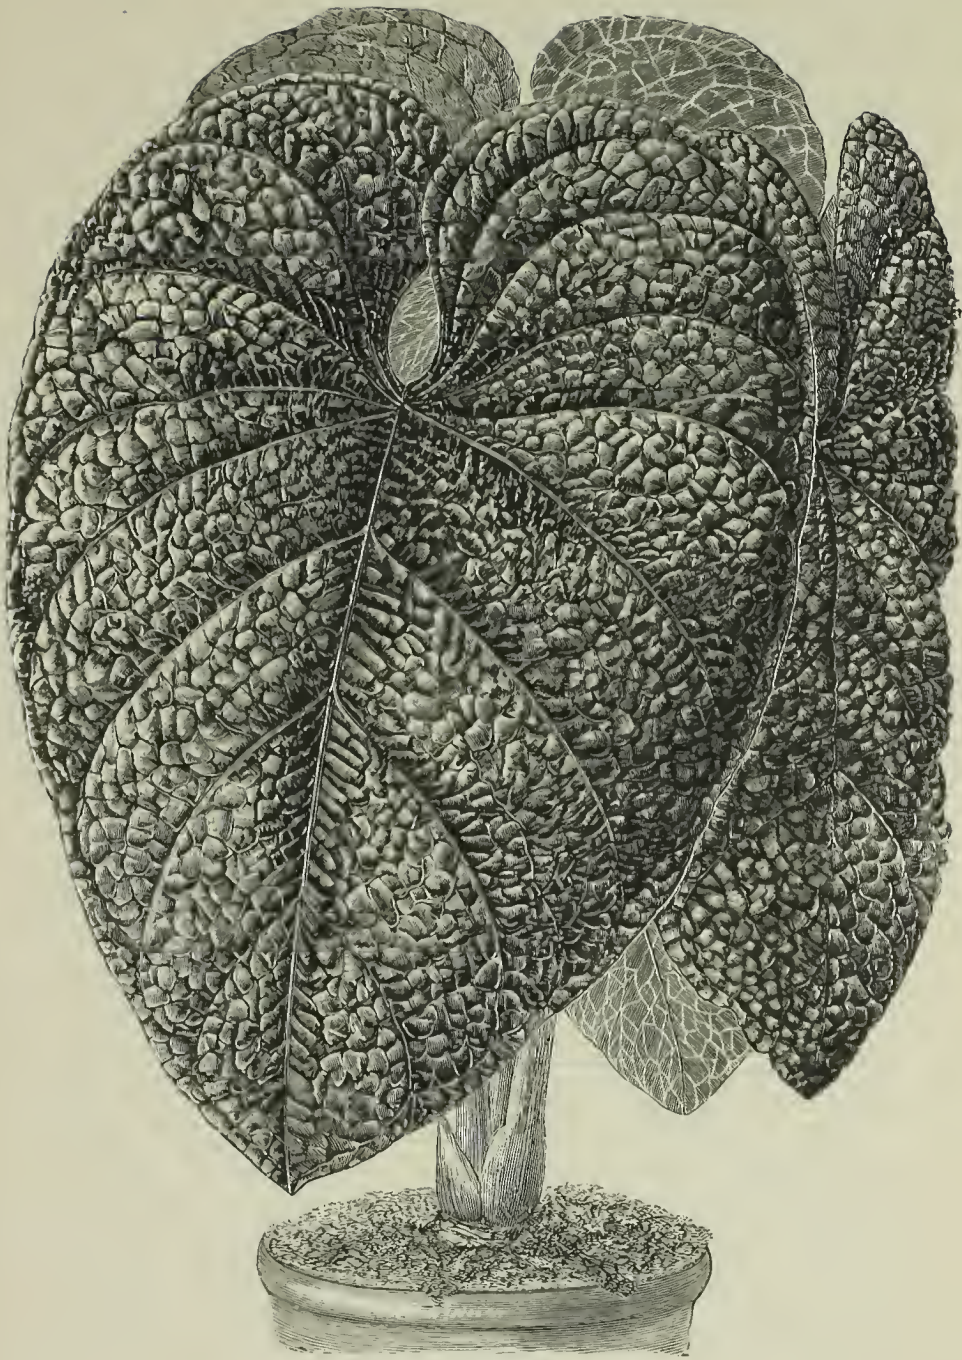
lucidum. A fine ornamental plant with long green leaves 5/-

macrolobum. A distinct species, the margins of the dark green leaves being deeply indented 7/6

magnificum. Dark velvety green leaves with undulated margins, ivory white midrib and veins 5/-

Mooreanum. Long and broad leaves with well-defined midrib and veins .. 21/-

Mortefontanense. Long leaves, midrib and veins distinctly marked 63/-



ANTHURIUM.

nymphœfolium. Light green cordate leaf, whitish midrib and veins 10/6

ornatum. Ornamental leaves with undulated margins 10/6

regale. Long heart-shaped leaves of a dark satin-green colour 7/6

scandens. A scandent growing species with pretty ornamental leaves 21/-

trilobum. A very ornamental species with light-green trilobate leaves on brownish red footstalls 31/6

triumphans. Handsome bright-green leaves, the young ones being of a pretty shade of light brown 31/6

Veitchii. Extremely handsome plant, very long broad leaves with sunken midrib and veins 10/6

Wallisii. Large pale green leaves with dark green markings 31/6

Warocqueanum. Large and long sagittate lanceolate leaves, with well-defined ivory-white midrib and veins 7/6

New Alocasias.

These, like Anthuriums, belong to the same natural order as Caladiums, and so grow under the same conditions. The ornamental character of their foliage is most varied and effective, and we have much pleasure in recommending the following new varieties.

atropurpurea. Rich velvety dark green leaf blades, covered with a purplish bloom, petioles deep purple; a very distinct and ornamental species.. .. 31/6

Augustiana. Dark green peltate leaves, petioles barred with wine-purple; very striking and beautiful 15/-

Chantrieri. Large oval sagittate leaves of a deep bronzy-green, midrib and veins of a dark greyish-green; extremely handsome 21/-

gandavensis. Long sagittate leaves with deeply sinuous margin, broad ivory white midrib and veins, midrib stained claret colour; a magnificent variety.. 63/-

Martin Cahuzac. Large broad undulated leaf, silver white veins and netting surrounding zones of silvery-grey; most striking variety 42/-

marginata. Leaf blade broadly cordate, rounded into a sharply-pointed apex, the basal lobes having a deep narrow sinus between, upper surface dark green, with pale reddish midrib and veins, reverse tinted purple; very distinct and ornamental 31/6

princeps. Leaves sagittate with deeply sinuous margins, metallic olive-green with a well-defined margin of chocolate-brown surrounding the entire leaf; very magnificent and distinct.. .. .. 63/-

Pucciana. Long green leaves with silvery variegation, reverse rich purple; a splendid variety 31/6

Watsoniana. Very large leaf undulated over whole surface, very prominent creamy-green veins with uneven silver bands, leaf finely netted, and with a metallic sheen; very beautiful 15/-

ALOCASIA SANDERIANA.

Alocasias.

GENERAL LIST.

argentea. Long green leaf with prominent veins dividing bands of silvery-grey 10/6

argyreia. Leaves long, silvery-grey with prominent veins 10/6

gigantea. Large olive-green arrow-shaped leaves, conspicuously ornamented with silver-grey midrib and veins 15/-

intermedia. Dark green sagittate leaves with silver-grey midrib and veins .. 10/6

FOREIGN ORDERS.

Owing to the great difficulty of collecting accounts abroad, we respectfully intimate to new customers that a remittance must accompany all foreign orders sufficient in amount to cover cost of order, packing and carriage, or an order must be sent for payment in London.

Stocks of some of the varieties being limited, orders will be executed in strict rotation.

By Special Appointment to the King.
